QMS Internal Auditor for ISO 9001:2015

Course No. 105B

This course teaches the importance of leadership, risk-based auditing, management review, internal auditing, and the monitoring and measurement of the QMS. The role and responsibility of the auditor, lead auditor, and the auditee at all stages are explained as well as the audit processes, methods and responsibilities.

Course Benefits

Attendees will learn how to audit including how to assess compliance to ISO 9001:2015 and understanding how to plan, conduct, follow-up on, and work with audited organizations to ensure efficient and effective audits. Students gain necessary auditing skills through formal class work, role playing, group workshops and open forum discussions.

Prerequisites

QMS auditing background.

Duration

Three Days (21 Hours)

Learning Objectives

At the end of this course, participants will be able to:

1. Understand the purpose and intent of ISO 9000 series of standards and how they are related to each other.
2. Describe the continuing process of the development of the ISO 9000 series and ISO 19011 and the impact on the audit process.
3. Understand the seven quality management principles.
4. Understand the requirement and interpretation of each clause of ISO 9001:2015.
5. Identify audit evidence that is needed to demonstrate conformity to the requirements.
6. Evaluate the effectiveness of the entire QMS
7. Know how planning, control process, and supporting activities can be evaluated effectively.
8. Understand the importance of leadership, risk-based auditing, management review, internal auditing, and the monitoring and measurement of the QMS.
9. Audit processes controls.
10. Understand audit processes, methods, and responsibilities.

MAKING BOTTOM LINE IMPACT
