PMI Construction Project Management Professional

Course No. 308

Duration
21 Hours

Sessions
7 Sessions

Format
Instructor-driven via
Zoom

Outcome
QPS Certificate

COURSE OVERVIEW

The Construction Professional Course is designed for individuals seeking to advance their skills in planning, executing, and managing construction projects with professionalism and efficiency.

This course blends industry best practices with real-world applications to develop competent construction professionals who deliver projects on time, within scope, and under budget. It covers PMI's PMP Body of Knowledge applied to the construction industry.

LEARNING OUTCOMES & KEY TAKEAWAYS

Upon completion of this course, participants will be able to:

- ✓ Apply project management principles in a construction context
- ✓ Interpret construction documents, drawings, and specifications
- ✓ Implement cost control, scheduling, and resource management techniques
- ✓ Ensure compliance with safety regulations and quality standards
- ✓ Utilize communication and leadership skills to manage teams and stakeholders
- ✓ Address risk, conflict, and change in dynamic construction environments
